Re: Evidence of Felony Voter Fraud by Arcan Cetin

Dear U.S. Attorney Hayes:

This letter seeks to direct your attention to Island County elector Arcan Cetin (State VoterID: WA010648837), (CountyID: 717293) currently registered at 1353 Orchard Loop, Oak Harbor.

As a voters' rights organization, it is our practice to research the voting habits of individuals like Mr. Cetin, who is both a non-citizen and a registered voter.

Our office has uncovered Cetin's apparent illegal voter registration and active voting history -- although he is not a citizen of the United States, according to statements offered by Mount Vernon Police Department Lt. Chris Cammock.¹ As you know, 18 U.S.C. § 611 prohibits "any alien" from participating in federal elections while the National Voter Registration Act of 1993 requires individuals wishing to register to affirm their U.S. citizenship. The Washington State voter registration form also expressly notes that those unable to attest to the same shall "not complete this form."²

According to most recent data available from the Washington Secretary of State, Cetin registered to vote on September 27, 2014 and proceeded to cast and be credited for votes in the 2014 General, 2015 General and 2016 Primary. His voter registration at the time of this letter's submission is still listed as Active, according to public records.

True the Vote in no way believes that this election integrity matter outweighs the alleged violent actions carried out by Mr. Cetin. It is our organization's hope that sharing this information will assist applicable law enforcement in having the fullest picture possible with respect to its primary suspect in this shocking matter. Should your office require any additional assistance from True the Vote, please do not hesitate to ask.

Thank you for your attention on this matter.

Sincerely,

Catherine Engelbrecht
